

Dear USPATH Members:

We hope you continue to remain safe and well in these challenging days. In order to provide members with a greater opportunity to apply, we have decided to continue to accept and review [applications for USPATH Committee Chairs](#) on an ongoing basis until all positions are filled.

The USPATH Board of Directors is excited to announce a Call for Applications for Committee Chairs for the following proposed committees:

- 1. Bylaws, Policies, and Procedures**
- 2. Research**
- 3. Education**
- 4. Clinical Care**
- 5. Advocacy/Community Liaison**
- 6. Legal and Health Insurance Issues**

Applicants for the Committee Chair positions must meet the following criteria:

- Be a USPATH member in good standing for at least 3 consecutive years
- Cannot be under disciplinary action by a university, hospital or professional society
- Have documented leadership abilities as evidenced by service and membership on established professional boards of directors, councils, or commissions, with significant experience and professional recognition in the areas represented by the committee to which the applicant is submitting their application

We are living at a time when transgender health is threatened in the United States by actions of the federal administration, some state legislative efforts, and activities of certain organizations in the private sector. USPATH needs your help in successfully countering these efforts.

Accepting the challenge to assume important leadership positions in USPATH will ensure that we take the lead as advocates for the community. The USPATH Board has heard loud and clear

a desire for increased opportunities for members to become involved in the leadership of the organization. We are hopeful that members will take advantage of this opportunity to assume leadership roles within USPATH.

The USPATH Committee Task Force will notify all applicants upon their selection as Committee Chairs.

As previously stated, we will continue to accept and review applications by qualified members until all positions have been filled.

If you do not wish to be a Chair, but you wish to join any of these committees as a member, please let us know by contacting wpath@wpath.org.

[Please click here to apply.](#)

Thank you for your interest,

USPATH Committee Task Force
