

USPATH 2025 Scientific Symposium
GEI Advanced Medical
Friday, September 26, 2025, 8:30 AM – 5:00 PM

The **Advanced Medical Course** is designed for medical professionals who have completed the WPATH GEI Foundations Course and are seeking to expand their expertise in the comprehensive care of transgender and gender diverse (TGD) individuals.

This advanced-level training offers in-depth knowledge and clinical guidance on complex medical considerations across the lifespan. Participants will engage with expert faculty on a range of topics critical to providing safe, affirming, and evidence-informed care.

This course equips providers with advanced clinical tools, up-to-date research, and a collaborative care framework to improve health outcomes and affirm the identities of the diverse TGD communities they serve.
